Work experience

My experience as a nursing student at JLN HOSPITAL, AJMER, spanning four years across various wards and the emergency ward,

✿ Showcase my diverse clinical exposure and adaptability. During this time, I have gained valuable hands-on experience in patient care, medication administration, treatment procedures, and emergency response protocols.

This experience demonstrates my ability to thrive in different healthcare settings, and my commitment to providing quality care to patients in various stages of health and illness.

JLN HOSPITAL, AJMER

As a nursing student during a pandemic situation, my role would be crucial in providing care and support to patients while also ensuring my own safety and that of my colleagues. Here's how I might contribute.

1. Adherence to infection control protocols
2. Patient monitoring
3. Medication administration
4. Emotional support
5. Education
6. Collaboration
7. Adaptability
8. Self-care

Overall, as a nursing student in a pandemic situation, my dedication, compassion, and willingness to serve are invaluable in providing essential care to those in need while navigating the challenges posed by the crisis.

Education

✿ B.Sc Nursing ----- 2018 - 2023

Government College of Nursing, Ajmer

Completing a BSc in Nursing degree, along with a specialization in *Midwifery* and *Community Health Care*, as well as a *Nursing Diploma* from the *Government College of Nursing, Ajmer*, demonstrates a *comprehensive education* in nursing and a commitment to *providing holistic care* across various healthcare settings. With this background, I possess a strong foundation in clinical nursing practice, *maternal and child health*, *community healthcare* delivery, and public health principles. My diverse skill set and knowledge equip me to excel in roles that involve direct patient care, *health* promotion, disease prevention, and community outreach.
